

COFIM

INDUSTRIAL
ENVIRONMENTAL
SYSTEMS

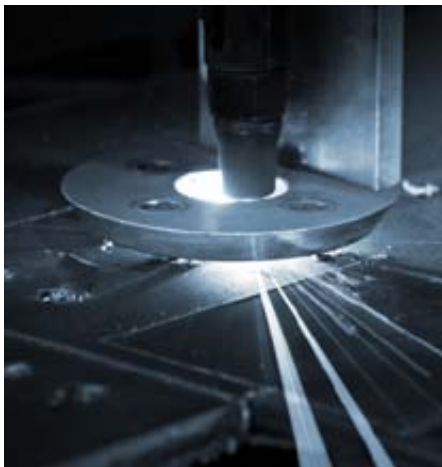

Beyond technology, people.

Business development cannot be separated from **respect for the quality of life** and the desire to create an environment that reflects these values.

People are at the heart of our business success. It is people, not technology that drives **innovation**.

When we **transform innovative ideas into solutions**, we create assets that deliver **sustainable** value for your business.

Products

One partner,
many horizons.

Wherever you develop your business, we are there. Thanks to our business network, we have expanded our portfolio of products ranging **from dust extraction to energy recovery systems**.

Complying with applicable regulations for the protection of the environment and safety in the workplace, our systems can be customised and integrated into your processes.

Thanks to the expertise of a highly qualified sales force, we have grown with the success of our customers.

We have achieved much, but there is more to do for our mutual success.

Suctioning

Filtering

Air conditioning

Painting plants

Sound proofing

Energetic recovery

Boilers

Cyclons

Extraction systems

Wood drying

Chipping mills

Smoke treatment

Used plants

After Sales

Maintenance
Programs

Customer
service

Services

global presence,
personal service.

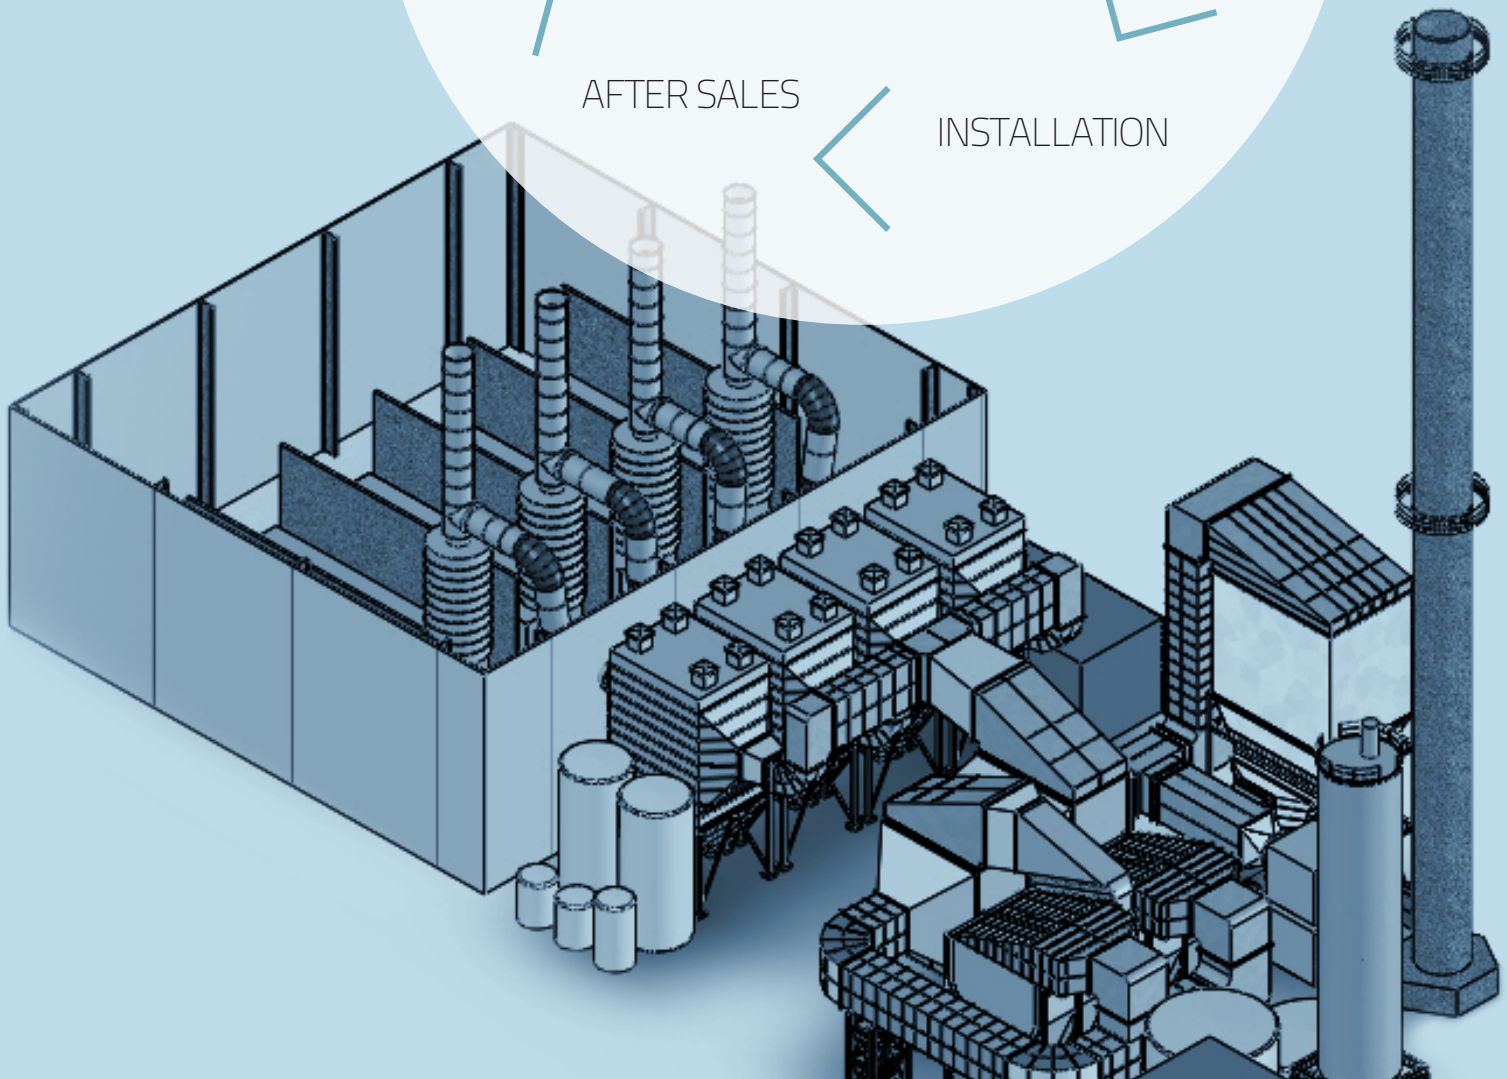

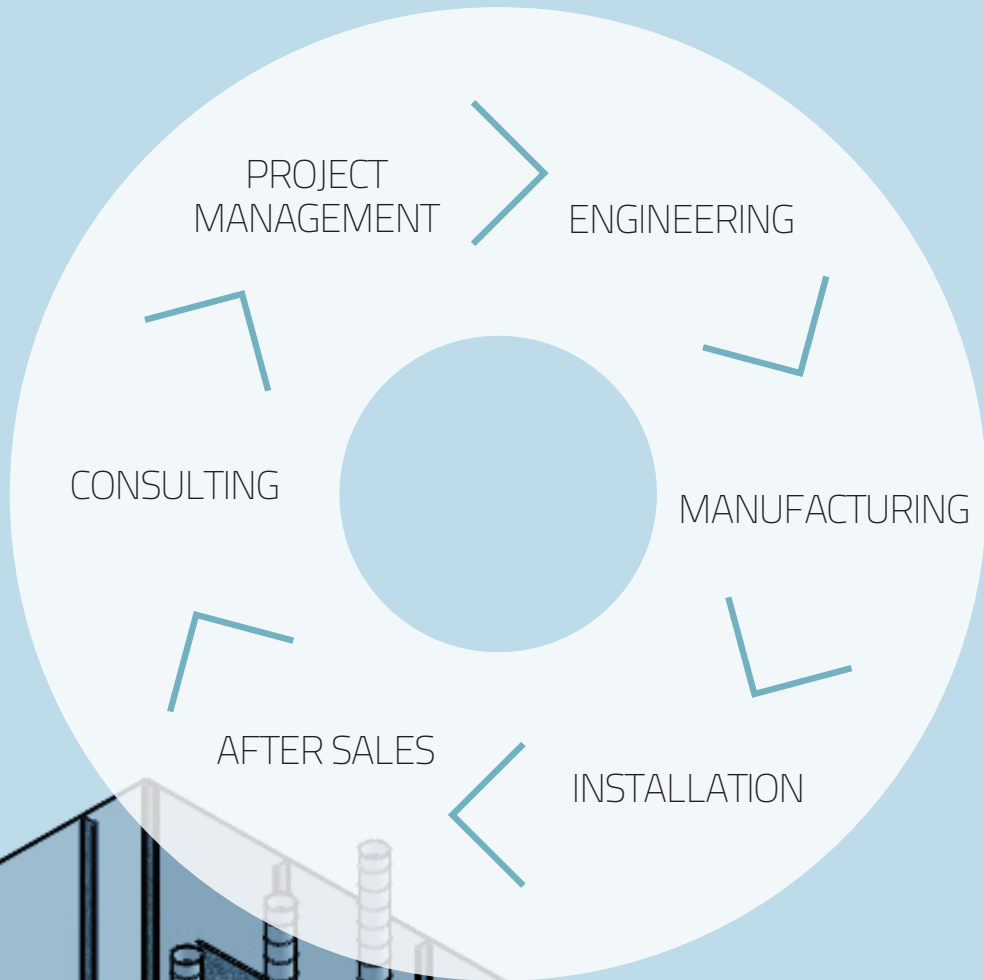

We support you every day with our commitment to create a partnership based on fairness and transparency: the only way a relationship can last.

Planning **“turnkey”** systems, we manage every stage, from the feasibility study through to after sales. Our service is **based on your requirements**.

In a world that changes every day, services to the customer must be constantly renewed: **streamlining operations and reducing cost is the primary objective**. How do we achieve this? By monitoring operational efficiency of systems through **scheduled maintenance**.

- Project Management
- Production
- Installation
- After sales
- Customer service
- Maintenance programs

Activities and Method

An open and
competitive mentality::
innovative **outsourcing**
solutions to streamline
and improve **processes**

It all starts with a strong desire for quality and innovation. These are the factors that have defined our progress and have enabled us to develop new market opportunities.

Thanks to numerous **research and design partnerships, our advanced solutions enable you to simplify and improve your business. We produce a wide range of industrial systems.**

We are certified to international environmental standards UNI EN ISO 9001:2008 and ISO 3834-3:2006.

We are committed to designing innovative technologies and services to make your business sustainable, add value to your projects and improve the quality of life. We know that our success begins with your success.
